Why Energy Precisions?

Engineered packages — not guesswork. Every install includes professional commissioning, monitoring setup & Ghana-standard electrical protection.

WHAT EVERY PACKAGE INCLUDES

- Hybrid inverter architecture (grid + battery backup)
- LiFePO₄ lithium storage — safer chemistry, longer cycle life
- Tier-1 solar modules (Jinko / Longi class)
- Roof mounting, DC/AC cabling, earthing & labelling
- Changeover / protection — client-ready distribution
- Remote monitoring & battery management where specified
- Installation, testing & handover checklist

BEFORE YOU ORDER

- Site survey may adjust panel count and battery blocks to match your actual load.
- Larger projects receive engineered BOM, load analysis & formal quotation from Energy Precisions.
- Payment: typically 30% deposit · 40% on delivery · 30% on commissioning (negotiable)

THE ENERGY PRECISIONS DIFFERENCE

Site survey first

We confirm roof area, cable routes & load before final BOM — no surprises on install day.

Transparent engineering

Larger projects receive load analysis, string design & itemized quotation from our PMS.

Competitive turnkey pricing

Package prices bundle supply + install — compare fairly against piecemeal quotes.

Local support

Accra & Kumasi teams — maintenance, upgrades & expansion when you grow.

Premium LiFePO₄ batteries · 5-year battery warranty (manufacturer) · 2-year workmanship on installation.

Prices valid until December 2026. Final design confirmed after site survey.
